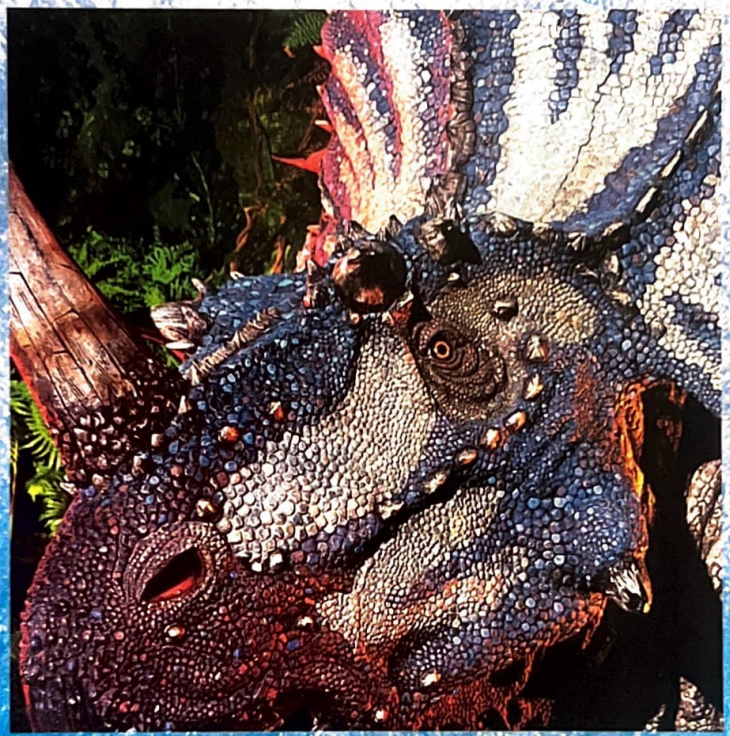
FACE TO FACE

IN SPRING, 1998, THE SUN WILL RISE. THE TREES WILL PART. AND DISNEY WILL OPEN THE GATES TO A WORLD OF ADVENTURE CAPTURING HUMANITY'S ENDURING LOVE OF ANIMALS. DISNEY'S ANIMAL KINGDOM™.

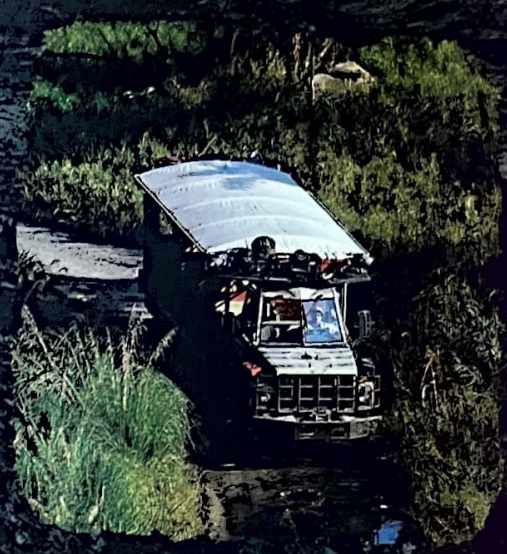
EVERY UNCHARTED PATH AND TRAIL IN THIS FOURTH WALT DISNEY WORLD® PARK WILL LEAD TO THRILLING ENCOUNTERS WITH THE REAL, IMAGINARY AND EXTINCT CREATURES WHO RULE HERE. ONE MINUTE YOUR HEART WILL POUND SO LOUD YOU CAN HEAR IT. THE NEXT YOU'LL HAVE A SMILE ON YOUR FACE YOU CAN'T WIPE AWAY.

THE IMAGINATION OF DISNEY IS GOING TO TAKE YOU ON A JOURNEY INTO THE MYSTERIES, MARVELS AND THRILLS OF THE EVER-UNFOLDING STORY OF ANIMALS—THOSE ONCE UPON THE EARTH TO THOSE ONCE UPON A TIME.



EYE TO EYE

The adventure begins in **The Oasis,** a lush tropical forest flowing with waterfalls and fluttering with exotic birds. Close by, a vivid rainbow of live creatures scamper in the mist.



Emerge from this breathtaking paradise, and there, rising 140 majestic feet before you, towers the awe-inspiring **Tree of Life,** its mighty trunk and branches cloaked in a tapestry of hand-carved animals–each more spectacular than the last.

Deep inside the Tree of Life, the wonders continue. Sit back and hold on for a humorous, 3-D spectacular capturing life from a bug's point of view.

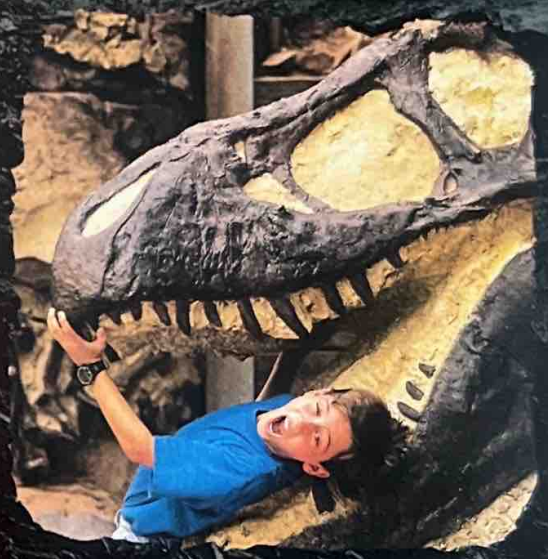
In the cool shadows of the giant tree, stroll the streets of **Safari Village,** the vibrant centerpiece of the Park. There's nothing like it in the world. Every gable, door, column and window comes to life with exotic carvings in every color of the spectrum.

Off in the distance you'll discover **Harambe, Africa**—the last signs of civilization before **Kilimanjaro Safaris** whisk you off to the African Savannah. Hang on as your open-air Land Rover rambles through muddy trails and running rivers until you find yourself surrounded by real herds of free-roaming elephants, lions, zebra, giraffe and other unpredictable creatures of the wild. Your camera's barely loaded when, suddenly, you're caught in a harrowing chase to stop a dangerous band of poachers. Will you ever make it back to Harambe?

NOSE TO NOSE

Travel deep into the jungle on the **Gorilla Falls Exploration Trail.** Part the branches and you're face-to-face with a magnificent troop of gorillas.

For some prehistoric hysteria, bolt over to **DinoLand U.S.A.** As you cross under the bracchiosauraus bridge you'll stumble across **The Boneyard** playground, a dino dig site where children can climb and slide and slither down huge dinosaur fossils or unearth the bones of a woolly mammoth.



Then race back 65 million years in time on **Countdown to Extinction,** a suspense-loaded thrill ride, to the edge of disaster. Your mission: to rescue the last dinosaur before a fiery meteor slams into earth.

In a wooded world all their own, creatures of the cuddly kind welcome you with open paws. Snuggle up next to Mickey and your other favorite Disney characters. And every day, your furry friends from Disney's **The Lion King** and **Jungle Book** come to life in delightful musical stage spectaculars.

Finally, through the interactive fun at **Conservation Station,** you'll discover how Disney cares for the creatures of this Park and animals around the globe. With the fascination we all share for animals, comes a commitment to protect wildlife and wild places—our contribution in the Circle of Life.

THE WORLD IS ABOUT TO TAKE A JOURNEY INTO THE STORY OF ANIMALS THAT HAS NEVER BEEN TAKEN. DOWN PATHS AS YET TO BE EXPLORED. THIS IS BUT A GLIMPSE OF ALL THE HEART-POUNDING, HEART-WARMING EXPERIENCES TO COME. SO COME BACK, FOR THE WILDEST DISNEY ADVENTURE YET.

Disney's
ANIMAL KINGDOM™
ROARING OPEN SPRING, 1998.
